INTEGRA

KINE-SYS® requires no outlet for gas or barrel recoil, but operates by means of a spring that is freely interposed between the bolt head and the bolt.

KINE-SYS® operation is based on the basic principle of inertia utilizing the kinetic energy created by the projection of the fired cartridge within an unvented barrel.

DUO-SYS[®]

SMOOTHBORE SEMI-AUTO / PUMP-ACTION CONVERTIBLE !

DUO-SYS operating system offers; in addition to all advantages of the **WINE-SYS** system, the option of converting from Semi-Auto to Pump-Action Operation Mode in a matter of seconds. Thus allows reliable cycling of special purpose ammo; such as low-pressure less-lethal rubber and/or tear-gas projectiles.

The Perfect Shotgun for Tactical Defence Law-Enforcement Purposes !
